import java.util.Scanner;
```

```
public class InetAddress {
```

```
    public static void main(String[] args) {
```

```
        Scanner sc=new Scanner(System.in);  
        System.out.println("Enter Host Name");  
        String host=sc.next();  
        try  
        {  
            InetAddress ip=InetAddress.getByName(host);  
            System.out.println("Ip Address is:"+ip.getHostAddress());  
        }
```

```
        catch(UnknownHostException e)  
        {  
            System.out.println(e);  
        }
```

```
}  
  
}  
  
}
```

Step-5

--> Run this file

Step-6

--> Paste the url in output window (www.twitter.com)
